

Digital Planner Installation Guide

Step-by-Step Setup for All Apps

DigitalHub

GoodNotes (iPad)

- Open GoodNotes and tap the + button
- Select 'Import' and choose the planner PDF
- Wait for the file to import (large files may take a moment)
- Your planner is ready! Use hyperlinked tabs to navigate

Notability (iPad/Mac)

- Open Notability and tap the import icon
- Select the planner PDF from your files
- The planner will open as a new note
- Tap links to navigate between pages

Xodo (All Platforms)

- Open Xodo and tap 'Open Document'
- Select the planner PDF
- Hyperlinks work automatically in Xodo
- Use the annotation tools to start planning

Importing Stickers

To use the digital stickers, import the sticker PNG files into your app's sticker/element library. In GoodNotes, use the Elements tool. In Notability, use the sticker tool. Resize and place stickers anywhere on your planner pages.
