

Curating the Planner Girl Lifestyle

A complete aesthetic system designed to bring personality, style, and visual cohesion to digital organization.

Defining the Aesthetic Archetypes

Cozy AM

Self-care, morning routine, slow living

Street Casual

On-the-go, urban, bold

Modern Professional

Structured, meetings, ambition

Classic Chic

Timeless, polished, weekend

Built for Customization and Inclusivity

Diverse Skin & Hair Profiles: Multiple tonal combinations to ensure user representation.

Detail Variations: Interchangeable lifestyle micro-text (e.g., 'Caffeine Queen' vs. 'Tea Queen').

Wardrobe Colorways: Variations in robe colors (Blush, Ivory, Onyx).

Expanding the Digital Wardrobe

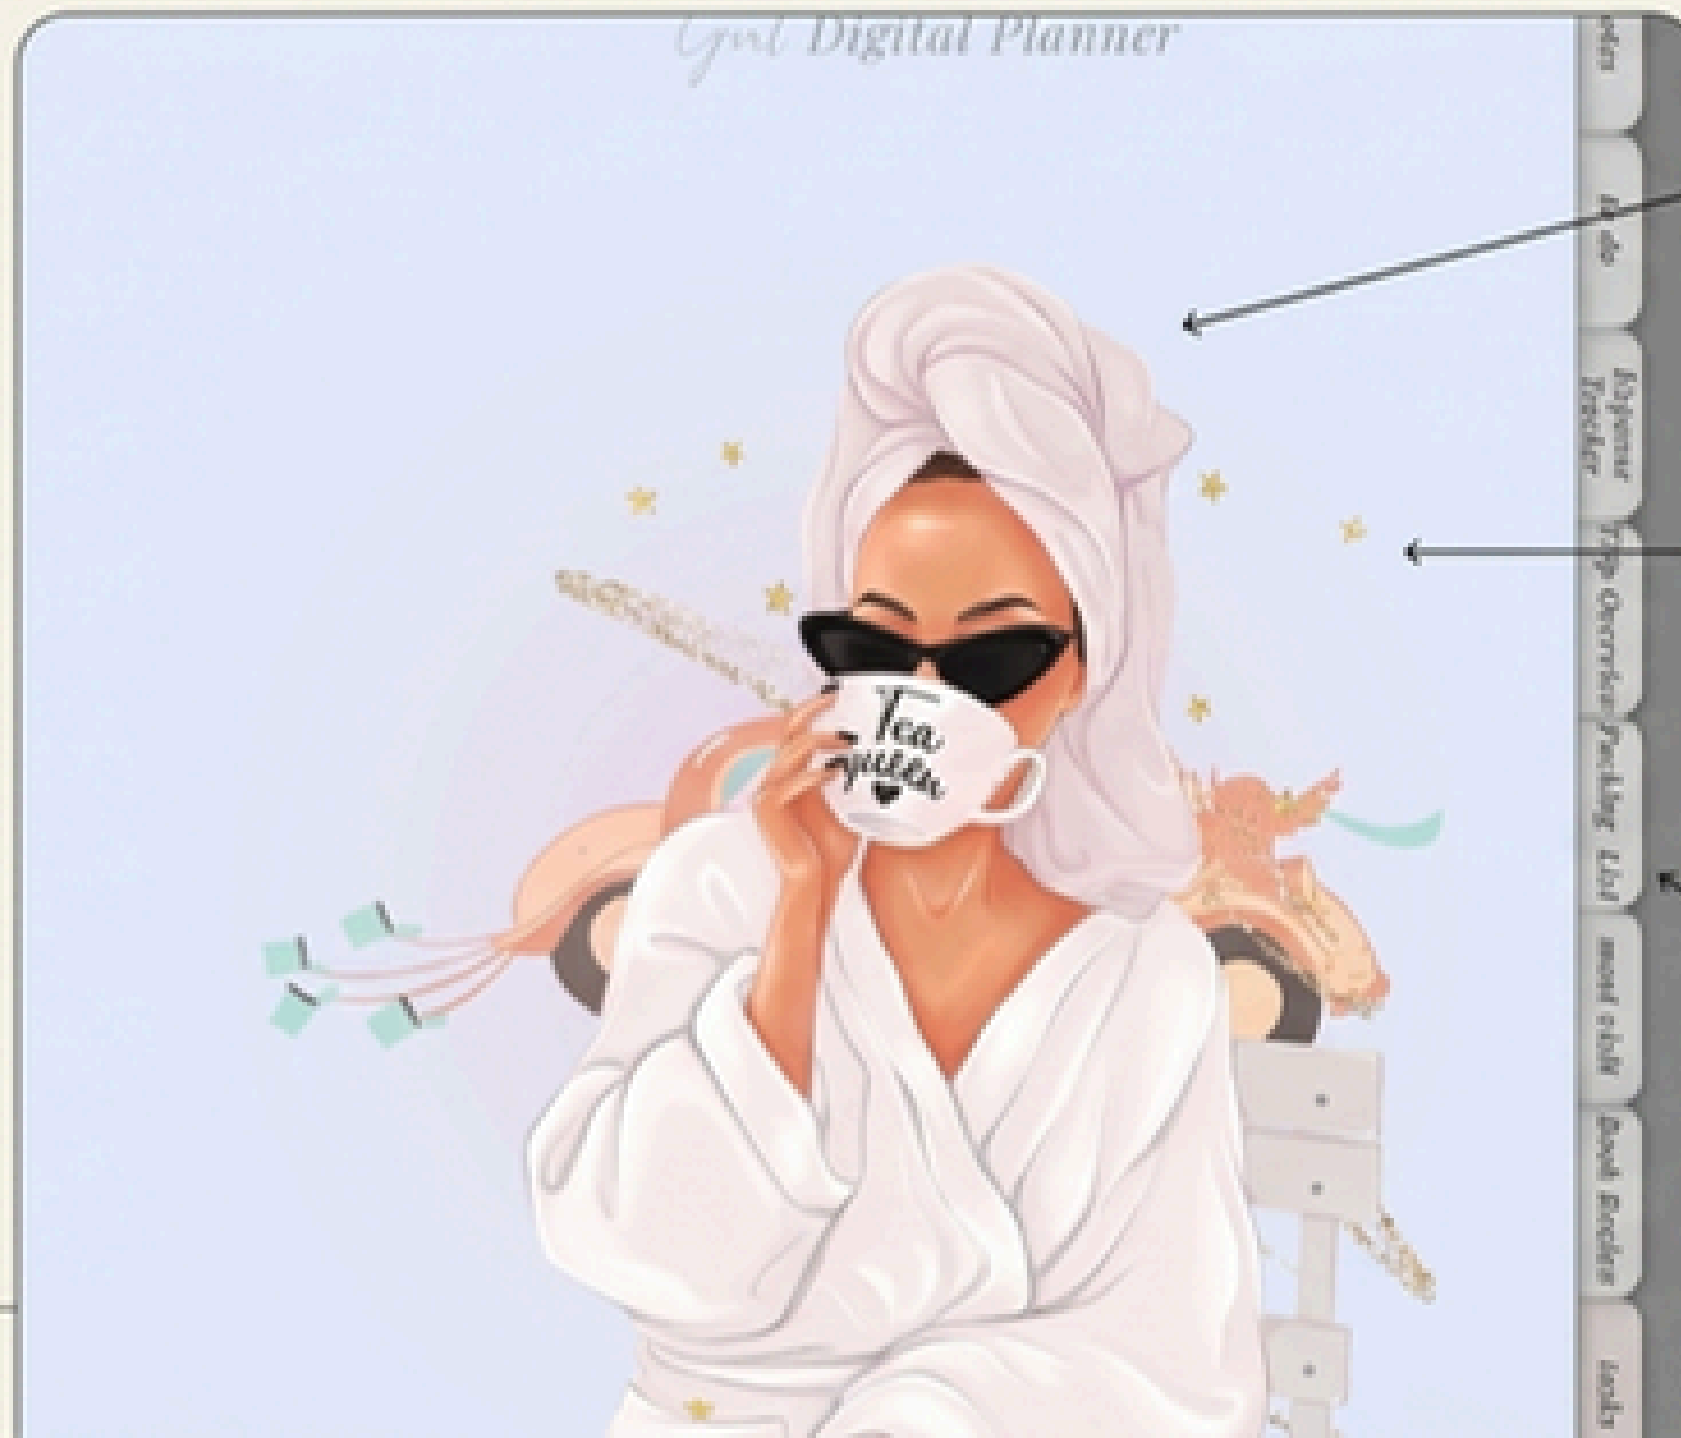

Ready-to-wear
assets for travel and
transit tracking.

Elevated looks
for career and
goal-setting
pages.

Integrating Assets *into* the Digital Environment

1

1. Focal Integration: Sticker assets anchor the page layout, setting the weekly or monthly mood.

2

2. Layering Dynamics: Illustrations integrate cleanly with background thematic elements (stars, vehicles) without visual clutter.

3

3. UI Harmony: Soft aesthetic tones complement the native digital planner interface rather than competing with it.
